Dwight D. Eisenhower Graduate Fellowship

Applicants should be at an advanced stage of their doctoral candidacies, preferably preparing their dissertations. The Institute will consider, on written university recommendation in unique circumstances, applications of less advanced graduate students or of persons who recently earned their Ph.D and are pursuing studies in the Institute's fields of interest. Applicants are awarded on merit.

National Science Foundation Awards

A competition is conducted for Graduate Research Fellowships, with additional awards offered for women in engineering and computer and information science. NSF Graduate Fellowships offer recognition and three years of support for advanced study to approximately 900 outstanding graduate students in the mathematical, physical, biological, engineering, and behavioral and social sciences, including the history of science and the philosophy of science, and to research-based PhD degrees in science education.
